Young World-Ricky Nelson
Author:Jerry Fuller

```
C
It's a young world
                                F
When you're in love you're in a young world
                               C
So take my hand and let me show you
         G7                    C
Just how true young love can be
    G7
And whoa-uh-oh

      C
It's a young world
                                F
And if you'll tell me you're my one girl
                                C
You'll make my whole life worth living
        G7                    C
Just by giving your love to me

G7                      C
All of the world is a treasure
G7                        C
When you have someone to care
G7                        C
Promise me your love for-ever
D7                              G7
We'll have the whole world to sh-are

          C
And it's a young world
                                  F
When you're in love you' re in a young world
                                C
If you believe what I've told you
       G7                       C
Let me hold you say you love me

Repeat #3

           C
And it's a young world
                                F
When you're in love you're in a young world
                                C
If you believe what I've told you
       G7                       C
Let me hold you say you love me
```
