[3/4 time]

```
C         F       C
I'm going away to stay awhile
                G7      C
Just to ease my worried mind
          F         C
You never cared for me my love
               G7    C
So I'm leaving you behind

     F                C
It's been this way so long my dear
    D7             G7
Why can't you understand
     F                   C
Your selfish heart broke up our home
         G7      C
Just for another man

            F       C
I'll try to live my life alone
                  G7     C
All through these lonely years
               F       C
I'll keep your picture here with me
             G7     C
To dry these bitter tears
```

Repeat #2

```
         G7      C
Just for another man
