Falling Deeper

Falling Deeper
(Bill Danoff & Taffy Nivert)

Drowning in the ocean -- you can be my lifeboat
Busted for a reefer, ninety-nine years solitar'
You can be my keeper
Falling in a deep hole and it's getting deeper

Stranded in the desert -- you can bring me water
Falling through the blue skies from an airplane, you can
Parachute down and save me
Need to take my medicine -- you can make me

Mixed up like a puzzle -- you put me together
Paranoia nightmares, raging in my sleep, you can
Kiss me on the cheek and wake me

Want to go to paradise -- you can take me
Need to take my medicine -- you can make me
Falling in a deep hole and it's getting deeper

A favorite. First heard on Howard & Roz's
FOLKSCENE show in LA. JN
