Salty Dog Blues

Salty Dog Blues

Let me be your salty dog
I don't wanna be your man at all
Honey let me be your salty dog

Down in the wildwood,sittin on the log
My finger on a trigger and my eye on a hog
Honey...

I pulled the trigger and the gun went blam
And I got splattered with bits of ham
Honey...

When God made a woman,He made her mighty funny
Made her lips taste just like honey
Honey...

I'm so glad the world's round lika a ball
There's enough pretty women here for us all
Honey...
