Self-Employed Worker

Self-Employed Worker
(Milea Kenin)

I own my own means of production, full value I get and I give
This may not be one worker's heaven, but its how this one worker must live

Its how this one worker must live (3x)
But its how this one worker must live

I don't mind irregular hours, my skill is my joy and my pride
If I work until I'm beside myself, my boss works right here at my side

My boss works right here at my side...

Security's quite nonexistent and benefits are that way too
My boss say's there's not enough money and I know that she's telling me true

But still since I've started this business, I've never had half so much fun
And I am the sole charter member of a great little union of one

I know that there's other just like me with pleasures and problems we share
We don't get exploited by bosses, but the system's not treating us fair

So come all you self-employed workers with all the strange things we must do
Let's schedule some time for a union for me and for you and for you
